

(b) The cumulative refund due subscribers shall be calculated from the date a valid complaint is filed until the date a cable operator implements a prospective rate reduction as ordered by the Commission pursuant to § 76.960. The Commission shall calculate refund liability according to the rules in effect for determining the reasonableness of the rates for the period of time covered by the complaint.

(c) The cable operator, in its discretion, may implement a refund in the following manner:

(1) By returning overcharges to those subscribers who actually paid the overcharges, either through direct payment or as a specifically identified, one-time credit to those subscribers' bills; or

(2) By means of a prospective percentage reduction in the unreasonable cable programming service rate or equipment charge to cover the cumulative overcharge. This shall be reflected as a specifically identified, one-time credit on prospective bills to the class of subscribers that currently subscribe to the cable programming service or associated equipment at issue.

(d) Refunds shall include interest computed at applicable rates published by the Internal Revenue Service for tax refunds and additional tax payments. Interest shall accrue from the date a valid complaint is filed until the refund issues.

(e) At the time the Commission orders a cable operator to pay refunds to subscribers, the franchising authority must return to the cable operator an amount equal to that portion of the franchise fee that was paid on the total amount of the refund to subscribers. The franchising authority may return the franchise fee overcharge either in an immediate lump sum payment, or the cable operator may deduct it from the cable system's future franchise fee payments.

[58 FR 29753, May 21, 1993, as amended at 59 FR 17975, Apr. 15, 1994]

**§ 76.962 Implementation and certification of compliance.**

(a) *Implementation.* A cable operator must implement remedial requirements, including prospective rate reductions and refunds, within 60 days

from the date the Commission releases an order mandating a remedy.

(b) *Certification of compliance.* A cable operator must certify to the Commission its compliance with any Commission order mandating remedial requirements. Such certification shall:

(1) Be filed with the Commission within 90 days from the date the Commission releases an order mandating a remedy;

(2) Reference the applicable Commission order;

(3) State that the cable operator has complied fully with all provisions of the Commission's order;

(4) Include a description of the precise measures the cable operator has taken to implement the remedies ordered by the Commission; and

(5) Be signed by an authorized representative of the cable operator.

**§ 76.963 Forfeiture.**

(a) If any cable operator willfully fails to comply with the terms of any Commission order, including an order mandating remedial requirements after a finding of unreasonable cable programming service or equipment rates, or any Commission rule, the Commission may, in addition to other remedies, impose a forfeiture pursuant to Section 503(b) of the Communications Act of 1934, as amended, 47 U.S.C. 503(b).

(b) A cable operator shall not be subject to forfeiture because its rate for cable programming service or equipment is determined to be unreasonable.

**§ 76.964 Written notification of changes in rates and services.**

(a) In addition to the requirement of § 76.309(c)(3)(i)(B) regarding advance notification to customers of any changes in rates, programming services or channel positions, cable systems shall give 30 days written notice to both subscribers and local franchising authorities before implementing any rate or service change. Such notice shall state the precise amount of any rate change and briefly explain in readily understandable fashion the cause of the rate change (e.g., inflation, changes in external costs or the addition/deletion of channels). When the change involves the addition or deletion of channels,

each channel added or deleted must be separately identified. Notices to subscribers shall inform them of their right to file complaints about changes in cable programming service tier rates and services, shall state that the subscriber may file the complaint within 90 days of the effective date of the rate change, and shall provide the address and phone number of the local franchising authority.

(b) To the extent the operator is required to provide notice of service and rate changes to subscribers, the operator may provide such notice using any reasonable means at its sole discretion.

(c) Notwithstanding any other provision of Part 76, a cable operator shall not be required to provide prior notice of any rate change that is the result of a regulatory fee, franchise fee, or any other fee, tax, assessment, or charge of any kind imposed by any Federal agency, State, or franchising authority on the transaction between the operator and the subscriber.

[61 FR 18979, Apr. 30, 1996]

**§ 76.970 Commercial leased access rates.**

(a) Cable operators shall designate channel capacity for commercial use by persons unaffiliated with the operator in accordance with the requirement of 47 U.S.C. 532. For purposes of 47 U.S.C. 532(b)(1)(A) and (B), only those channels that must be carried pursuant to 47 U.S.C. 534 and 535 qualify as channels that are required for use by Federal law or regulation. For cable systems with 100 or fewer channels, channels that cannot be used due to technical and safety regulations of the Federal Government (e.g., aeronautical channels) shall be excluded when calculating the set-aside requirement.

(b) In determining whether a party is an "affiliate" for purposes of commercial leased access, the definitions contained in the notes to § 76.501 shall be used, provided, however, that the single majority shareholder provision of Note 2(b) to § 76.501 and the limited partner insulation provisions of Note 2(g) to § 76.501 shall not apply, and the provisions of Note 2(a) to § 76.501 regarding five (5) percent interest shall include all voting or nonvoting stock or limited partnership equity interest

of five (5) percent or more. Actual working control, in whatever manner exercised, shall also be deemed a cognizable interest.

(c) The maximum commercial leased access rate that a cable operator may charge for full-time channel placement on a tier exceeding a subscriber penetration of 50 percent is the average implicit fee for full-time channel placement on all such tier(s).

(d) The average implicit fee identified in paragraph (c) of this section for a full-time channel on a tier with a subscriber penetration over 50 percent shall be calculated by first calculating the total amount the operator receives in subscriber revenue per month for the programming on all such tier(s), and then subtracting the total amount it pays in programming costs per month for such tier(s) (the "total implicit fee calculation"). A weighting scheme that accounts for differences in the number of subscribers and channels on all such tier(s) must be used to determine how much of the total implicit fee calculation will be recovered from any particular tier. The weighting scheme is determined in two steps. First, the number of subscribers is multiplied by the number of channels (the result is the number of "subscriber-channels") on each tier with subscriber penetration over 50 percent. For instance, a tier with 10 channels and 1,000 subscribers would have a total of 10,000 subscriber-channels. Second, the subscriber-channels on each of these tiers is divided by the total subscriber-channels on all such tiers. Given the percent of subscriber-channels for the particular tier, the implicit fee for the tier is computed by multiplying the subscriber-channel percentage for the tier by the total implicit fee calculation. Finally, to calculate the average implicit fee per channel, the implicit fee for the tier must be divided by the corresponding number of channels on the tier. The final result is the maximum rate per month that the operator may charge the leased access programmer for a full-time channel on that particular tier. The average implicit fee shall be calculated by using all channels carried on any tier exceeding 50 percent
